National Pest Control Program

About us:

Since being founded by William H. Brownyard in 1950, Brownyard Group has been a pioneer in specialized liability insurance coverage. Today, Brownyard Group offers custom-tailored insurance packages for several industries, and features PCOpro™, a state-of-the-art insurance policy for the established Pest Control Operator.

Leading Liability Insurance for PCOs

PCOpro™, designed by Brownyard Group specifically for the pest management industry, is the broadest commercial insurance program currently available at highly competitive prices. In addition to Commercial General and Professional Liability, it also features additional coverages — all with competitive premiums, no reporting requirements and aggregate limits up to three times the occurrence limit:

- Sudden and Accidental Pollution
- Automobile Pollution Transit Coverage
- Pollution Liability — Auto Hazard
- Job Site Pollution Coverage
- Broad Form Endorsement
- Exterminators Liability — Care, Custody & Control Coverage
- Pest Inspection Damage Liability — 36-month Discovery Period
- Lost Key Coverage

Recently, Brownyard added Workers' Compensation Coverage in California for our Pest Control Program. This coverage is written through an "A" rated carrier and offered as part of the PCOpro™ package or as a stand-alone coverage.

Competitively Priced Coverage with Highly Rated Carriers

All of Brownyard's insurance products are underwritten by highly rated carriers and supported by Brownyard Claims Management, a specialized claims management company. Brownyard Claims Management delivers reliable service for effective claims cost management, cost-effective case resolution, in-depth investigations, prompt claim evaluation and team handling by experienced staff.

At www.brownyard.com, you and your broker can complete the appropriate application(s) for the coverage(s) you need to get you started with protecting your business. Contact your licensed agent or broker and Brownyard will work directly with them to place this very important coverage.
